NYCDOE data

Corrections can ONLY be made an NYCDOE data system.

NYSED Accountability data Reported/Collected in Level 0

How to...

Read the Level 0 Dashboard

Template titles are [HYPERLINKS](#) that open the **Reports** screen.

of Valid Records

New

Info Count: flags potential issues.
I.E. Staff Snapshot has 1 flag for an LO name that does not match name for the record's TEACH ID.

Import Message Log: Count of errors during import. This is only refreshed once per day when data is imported.

If L1 Data Prep is complete, no action is needed.

Errors

of Errors Records

- Import** –format
- Verification**- Incomplete or Illogical

Tap **#** to view errors

Timestamp of work in LO

Import - last electronic import

Update- last record change manual or import

Upload- when L1 Data Prep was last completed

“Y” denotes that a record(s) has been manually deleted since the last L1 Data Prep Process was completed.

Repeat L1 Data Prep

Upload & Delete columns

Red warning that data has been updated, time to repeat: **L1 Data Prep**

Yellow caution L0 expects periodic updates, consider if new information should be uploaded.

Certain information is pre-populated in Level 0. The NYCDOE uses secure data transfer practices to provide ESBOCES with basic student data required for the operation of Level 0. This information is sourced from ATS or another DOE data system. A snapshot of ATS data each Wednesday, is sent to ESB and refreshed in Level 0 the following Monday. NOTE- A new student enrollment reported in ATS on a Thursday will not be visible in L0 for 11 days. Demographic and Enrollment data is ONLY live in ATS and can only be corrected in thesource system.

- Student Demographics – Name, ID, etc.
- Enrollment- School, Grade Level, Start/End Dates, etc.

90010001 : SAMPLE DISTRICT 01 - Dashboard Stats:

IGNORE Demo/Enrollment Verification Errors

ATS Data
Data refreshed daily from ESB's L1.

Verification errors of ATS data should be ignored. This columns counts any NYC code that does not match NYSED L0 codes/logic, this is not an indication that ATS data is wrong.
