THE DIGITAL EQUITY TASK FORCE

The ConnectALL Office, in partnership with the New York State Library, has launched a Digital Equity Taskforce. The Taskforce will help guide the State in its plan for over $1B of investments through the State Digital Equity Plan and Broadband Equity, Access, and Deployment Program through input on:

- Vision for achieving digital equity across the state
- Barriers and assets to digital equity
- Specific needs of historically marginalized populations, including incarcerated people, aging people, low-income people, veterans, individuals with disabilities, individuals with a language barrier, members of racial or ethnic minority groups, and rural residents.

Representatives from over a dozen State Agencies will be working with community leaders to launch a series of public meetings focused on Education, Healthcare, Workforce and Economic Development, Civic and Social Engagement, and the Accessibility of Government Services.

THE EDUCATION SUBCOMMITTEE

Co-Chairs:
- Lauren Moore, New York State Library,
- Paul Cardettino, New York State Education Department
- Monique Tate, CommunityTechNY
- Dale Breault, Franklin-Essex-Hamilton BOCES

We want to hear from educators, students, community organizations, libraries, and community members with experience with New York State's education systems about your experience and recommendations for creating digital equity in New York.

HOW TO REGISTER

This meeting will be held virtually on Zoom. Visit https://bit.ly/DETF-Education-Subcommittee to register or scan the QR code below:
