

The Attendance App

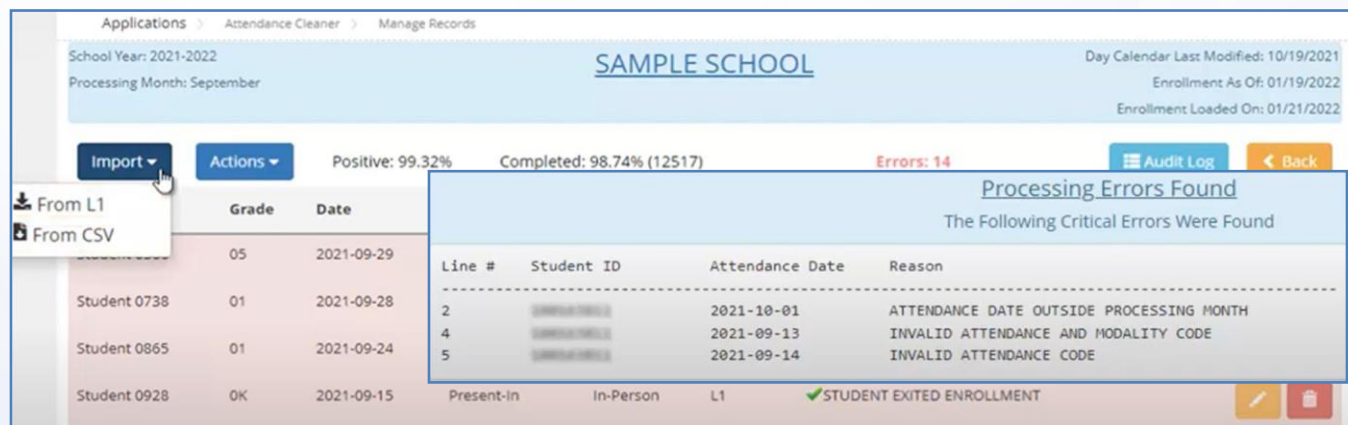

by Eastern Suffolk BOCES

Eastern Suffolk BOCES has developed a custom Attendance Application to help NYC charter schools that need an electronic method for the recording of Student Daily Attendance data. The App leverages data in Level 0 to collect complete attendance records for each day of school based on the Day Calendar for each students' ATS Enrollment and provides features for data quality and completeness.

The Attendance App

- Allows for the import of partial data or can generate data of the most common attendance type for a single day, week or month. Easily update unique codes for students absent, tardy or suspended.
- Provides a safeguard against missing student records, which NYSED defaults to absences for the annual calculation of Chronic Absenteeism.
- Live reporting of an attendance rate. Easily monitor the reported rate to ensure the data represents the school's positive attendance rate.
- Easy-to-use search and on-demand edit functionality to ensure accurate reporting.
- Monthly data is automatically transferred to Level 0.

The App should save your staff time and frustration: never type a student ID or research enrollment start/end dates and share State requirements by designating a different person for attendance data reporting outside of Level 0.

The screenshot shows the 'Attendance Cleaner' interface for 'SAMPLE SCHOOL'. It displays the school year (2021-2022), processing month (September), and day calendar last modified (10/19/2021). Key statistics include a positive attendance rate of 99.32%, completion of 98.74% (12517 records), and 14 errors. A dropdown menu for 'Import' shows options 'From L1' and 'From CSV'. A table lists student records with columns for Student ID, Grade, Date, and Attendance Status. A 'Processing Errors Found' pop-up window lists critical errors: 'ATTENDANCE DATE OUTSIDE PROCESSING MONTH', 'INVALID ATTENDANCE AND MODALITY CODE', and 'INVALID ATTENDANCE CODE'.

Line #	Student ID	Attendance Date	Reason
2	[REDACTED]	2021-10-01	ATTENDANCE DATE OUTSIDE PROCESSING MONTH
4	[REDACTED]	2021-09-13	INVALID ATTENDANCE AND MODALITY CODE
5	[REDACTED]	2021-09-14	INVALID ATTENDANCE CODE

NYSED requires a daily attendance record for every student on every day of school (180 required). For every 100 students, that equals 1,800 records.

The Cost: an annual license and a per student fee (based on BEDS day, 10/4/2023), there are no additional charges new enrollments throughout the year:

Software Subscription/License:	\$1,000.00
Per pupil as of BEDS day:	\$1.50
